

MS Electric

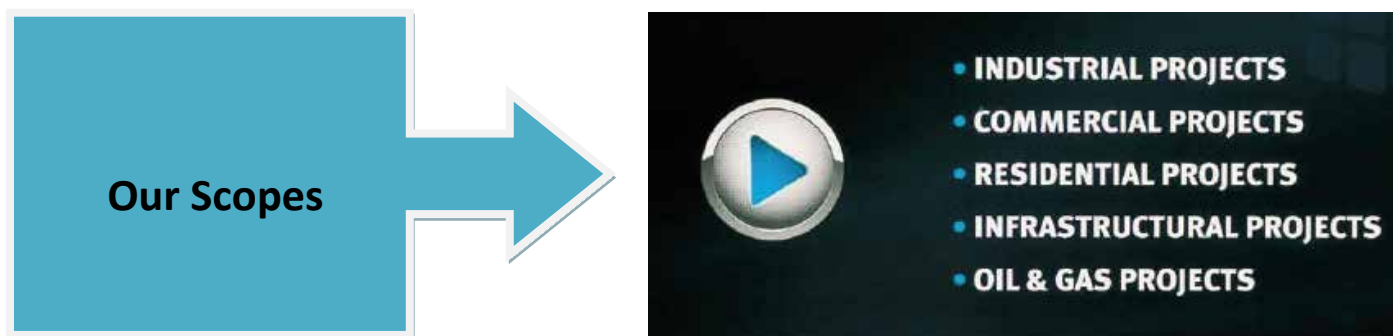

***ENGINEERING, CONTRACTING
&
CONSULTING COMPANY Ltd.***

MT Electric is a leading specialist Engineering and Contracting Company with head-quarter in Istanbul, operating in international market in the Electrical, Mechanical, Automation, Water and Sewage Treatment Systems.

It has successfully completed many industrial and residential projects particularly starting from the design and process stages and to delivering turnkey construction in Electrical and Mechanical sector with using his dynamic team and international experience, latest information and technology in engineering and management sciences and always ensures the highest quality and standards, based on internationally acknowledged procedures.

Our vision is to be a full service partner beyond borders with our dynamic team and international experience...

Main Activity and Focus Issues

- * Low Voltage Panels production
- * Control & Automation System Panels production
- * Fire Detection, Low Current and Security Systems Panel production
- * Hydro, Wind and Thermal Power Plants Electrical-Mechanical installation, subcontractor, electrical project engineering and consultancy services
- * High Voltage Power System Projects, electrical-mechanical installation, Sub-contracting and turn-key supply
- * Medium Voltage Power System Projects, electrical-mechanical installation, subcontracting and turn-key supply
- * Low Voltage Power System Projects, electrical-mechanical installation, subcontracting and turn-key supply
- * Medium Voltage and Low Voltage Panel Systems supply and project management
- * Fire Detection, Low Current and Security Systems design, supply and installations
- * Lighting Systems design, supply and installations
- * Grounding and Lightning Protection Systems design, supply and installation
- * Field Instruments supply and installation
- * Cable Tray design, supply and installation
- * Energy Automation System Engineering and solutions
- * Energy Efficiency and Energy Monitoring Systems
- * Process Automation and Control System Solutions
- * DCS / Automation and Control System Engineering and Consulting services
- * HVAC Systems Mechanical design, supply, installations and project management

CERTIFICATE OF COMPLETION

TO: MT ELEKTRİK MÜHENDİSLİK SAN. VE TİC. LTD. ŞTİ

Mr. Murat TURAN

In the project:

- Haramain High Speed Rail Madinah Station / Kingdom of Saudi Arabia

The following works with in scope of the projects:

- 13,8 kV Medium Voltage System Supply
- 13,8 kV / 0,4 kV Trihal Transformers Supply,
- 0,4 kV Low Voltage Main Distribution, Sub-Distribution Panels, Motor Control Center Panels and DDC HVAC Panels Design & Supply,
- Medium Voltage Control and Monitoring System Desgin & Supply,
- KNX Lighting Automation System Design & Supply
- UPS and DC Battery System Supply
- Short Circuit, Load Flow, Relay Setting Calculations
- Test, Commissioning and Start-up Services

have been completed in the period of commitment in accordance to the international standards and project specifications.
